Verizon XV6800 Software Installation

Note: Before running the RUU, back up any personal data from the Mobile Device to the computer first using ActiveSync.

1. On the Welcome Screen, click Next to begin the ROM update installation.

2. On the next screen, follow the listed instructions in the dialog box first. When you are done, click **Next** to proceed.

Note: You should read and follow all the instructions listed before clicking Next.

3. The following message will then be displayed, indicating that the utility is verifying and acquiring information about the device as preparation for the update process. Wait for this verification process to finish.

4. Current information about the device, such as the model ID, image version and language will then be displayed. Click **Update** to proceed.

Updating the ROM image on your PDA Phone		
Please do not remove the USB connection from the PDA Phone or launch any program during the update process.		
Remember, the operation will take about 10 minutes.		

1

Note: In the middle of the update process, the progress bar may stop running. This is normal as the RUU is adjusting itself to complete the update process automatically.

7. When you see the screen below, it means update is complete. Click **Finish** to exit the utility.
